

Workshop on
**"MAKE IN INDIA -
Transforming Research to Reality"**

05th September 2017

Convener

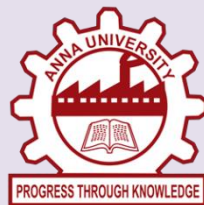

Dr. S. Thamarai Selvi

Coordinators

Dr. V. S. Senthil Kumar

Dr. M. R. Sumalatha

ANNA UNIVERSITY, CHENNAI

Organized by

**CENTRE FOR TECHNOLOGY
DEVELOPMENT AND TRANSFER**

Focus

- Make in India for Technocrats
- Innovation for the upliftment of society
- Methodologies to transform research to reality
- Challenges in the above transformation

Preamble

Make in India is an initiative campaign run by the Government of India to cheer up multinational companies as well as domestic companies at national and international level in order to promote manufacturing products in India. The scope for transforming the Research outputs into successful products / technology development has been tremendously increasing over the years in India. Anna University, the state's premier technical university, is engaged in numerous research activities funded by various government and international funding agencies.

Objectives

- To promote research that will bridge the gap between industries and society
- To implement scientific research for the societal applications
- To reflect our country with innovation and STEM-based entrepreneurship

Resource Persons

Expert members from Central Government organizations and Industries.

About the University

Anna University was established on 4th September 1978. Anna University is a dynamic institution dedicated to the pursuit of academic excellence. The University has become more relevant than ever as a provider of talent, knowledge and innovation in this age of progress through knowledge. Anna University is the largest technical University, with a strength evidenced by 615 affiliated colleges and 7.37 lakh students on roll. The executive committee of the National Assessment and Accreditation Council has accredited the university with A grade.

Recently, Anna University has been ranked the 6th among the universities in the country, 8th in engineering category and 13th in the overall category. Anna University is ranked 293th World wide as per QS (Quacquarelli Symonds) in the Faculty of Engineering and Technology during the year 2016-2017. In the areas Mechanical, Aeronautical and Manufacturing Engineering, Anna University is ranked between 151 and 200 at the global level and 7th at the national level.

About the CTDT

Centre For Technology Development and Transfer (CTDT) was established during the year 2005 to encourage Research and Technology Transfer in our university. CTDT takes initiative to help the User Agencies and the Industries in identifying possible areas of collaboration in Research activities. CTDT is responsible to interact with the Stakeholders for partnership with Industries and R&D establishment, for Research, Consultancies and Training programs of the University.

CTDT provides vision for Students and Faculty members in R&D Activities, Consultancy and Sponsored Research Projects. CTDT has also the responsibility of commercializing developed technologies through business incubation and entrepreneurship development.
